

## *The Blackwell Companion to Phonology*

### List of Entries

Volume	Chapter	Title
1	1	Underlying Representations
1	2	Contrast
1	3	Learnability
1	4	Markedness
1	5	The Atoms of Phonological Representations
1	6	Self-organization in Phonology
1	7	Feature Specification and Underspecification
1	8	Sonorants
1	9	Handshape in Sign Language Phonology
1	10	The Other Hand in Sign Language Phonology
1	11	The Phoneme
1	12	Coronals
1	13	The Stricture Features
1	14	Autosegments
1	15	Glides
1	16	Affricates
1	17	Distinctive Features
1	18	The Representation of Clicks
1	19	Vowel Place
1	20	The Representation of Vowel Length
1	21	Vowel Height
1	22	Consonantal Place of Articulation
1	23	Partially Nasal Segments
1	24	The Phonology of Movement in Sign Language
1	25	Pharyngeals
1	26	Schwa
1	27	The Organization of Features
1	28	The Representation of Fricatives
1	29	Secondary and Double Articulation
1	30	The Representation of Rhotics
1	31	Lateral Consonants
2	32	The Representation of Intonation
2	33	Syllable-internal Structure
2	34	Precedence Relations in Phonology
2	35	Downstep
2	36	Final Consonants
2	37	Geminates
2	38	The Representation of sC Clusters
2	39	Stress: Phonotactic and Phonetic Evidence
2	40	The Foot
2	41	The Representation of Word Stress
2	42	Pitch Accent Systems

## ***The Blackwell Companion to Phonology***

### **List of Entries**

2	43	Extrametricity and Non-finality
2	44	The Iambic-Trochaic Law
2	45	The Representation of Tone
2	46	Positional Effects in Consonant Clusters
2	47	Initial Geminates
2	48	Stress-timed vs. Syllable-timed Languages
2	49	Sonority
2	50	Tonal Alignment
2	51	The Phonological Word
2	52	Ternary Rhythm
2	53	Syllable Contact
2	54	The Skeleton
2	55	Onsets
2	56	Sign Syllables
2	57	Quantity-sensitivity
3	58	The Emergence of the Unmarked
3	59	Metathesis
3	60	Dissimilation
3	61	Hiatus Resolution
3	62	Constraint Conjunction
3	63	Markedness and Faithfulness Constraints
3	64	Compensatory Lengthening
3	65	Consonant Mutation
3	66	Lenition
3	67	Vowel Epenthesis
3	68	Deletion
3	69	Final Devoicing and Final Laryngeal Neutralization
3	70	Conspiracies
3	71	Palatalization
3	72	Consonant Harmony in Child Language
3	73	Chain Shifts
3	74	Rule Ordering
3	75	Consonant–Vowel Place Feature Interactions
3	76	Structure Preservation: The Resilience of Distinctive Information
3	77	Long-distance Assimilation of Consonants
3	78	Nasal Harmony
3	79	Reduction
3	80	Mergers and Neutralization
3	81	Local Assimilation
4	82	Featural Affixes
4	83	Paradigms
4	84	Clitics

***The Blackwell Companion to Phonology***

**List of Entries**

4	85	Cyclicity
4	86	Morpheme Structure Constraints
4	87	Neighborhood Effects
4	88	Derived Environment Effects
4	89	Gradience and Categoricity in Phonological Theory
4	90	Frequency Effects
4	91	Vowel Harmony: Opaque and Transparent Vowels
4	92	Variability
4	93	Sound Change
4	94	Lexical Phonology and the Lexical Syndrome
4	95	Loanword Phonology
4	96	Experimental Approaches in Theoretical Phonology
4	97	Tonogenesis
4	98	Speech Perception and Phonology
4	99	Phonologically Conditioned Allomorph Selection
4	100	Reduplication
4	101	The Interpretation of Phonological Patterns in First Language Acquisition
4	102	Category-specific Effects
4	103	Phonological Sensitivity to Morphological Structure
4	104	Root–Affix Asymmetries
4	105	Tier Segregation
4	106	Exceptionality
5	107	Chinese Tone Sandhi
5	108	Semitic Templates
5	109	Polish Syllable Structure
5	110	Metaphony in Romance
5	111	Laryngeal Contrast in Korean
5	112	French Liaison
5	113	Flapping in American English
5	114	Bantu Tone
5	115	Chinese Syllable Structure
5	116	Sentential Prominence in English
5	117	Celtic Mutations
5	118	Turkish Vowel Harmony
5	119	Reduplication in Sanskrit
5	120	Japanese Pitch Accent
5	121	Slavic Palatalization
5	122	Slavic Yers
5	123	Hungarian Vowel Harmony
5	124	Word Stress in Arabic
